

DESCRIPTION, GOALS, AND OBJECTIVES:

COURSE DESCRIPTION: This course is a hands-on-training that will teach you how to record a comprehensive periodontal chart using the electronic probe by Florida Probe. In most respects it is similar to using your manual probe, but it will allow you to accurately record the pocket depth by 0.2 mm. It is also designed help calibrate the accuracy amongst providers.

The probe eliminates the need for an assistant to record the chart or for the clinician to have to touch the keyboard. This will also eliminate the chances of cross-contamination.

The system is a fully integrated software that will give your patient feedback as you chart. It also has built-in educational tools, chart comparisons, and much more.

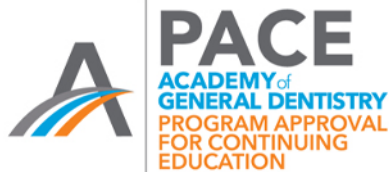

COURSE GOALS: Our goal is to show you that combined with your knowledge of periodontal disease, technology can help you become a better clinician and educator.

We want technology to be a fun and integral part of your daily practice.

COURSE OBJECTIVES:

By the end of this course the trainee will:

- Have an understanding of the probe, its parts and how to properly care for and sterilize it.
- Illustrate proper angulation and recording of all data on a comprehensive periodontal chart.
- Understand the latest data on classification of periodontal disease and how to record that on a Florida Probe chart.
- Know how, why, and what data is collected during a comprehensive periodontal exam.
- Be knowledgeable about treatment obstacles.
- Understand the role of technology in patient treatment acceptance, practice-building, and risk management.

Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
6/1/2020 to 5/31/2024
Provider ID# 146058

GINA DuQUESNAY

Gina DuQuesnay, CRDH, BSDH, BSHSA is the Training Manager for Florida Probe Corporation and has been working as an RDH in the dental field for over 15 years. She began her dental career in the military and her passion for periodontics led her to become a user of Florida Probe and VoiceWorks, a trainer, and ultimately, manager of Florida Probe's training program.

CHRIS GIBBS

Chris Gibbs is the CEO for Florida Probe Corporation and has been with the company for over 25 years, acquiring considerable knowledge about periodontal disease during this time. He is the ultimate expert in how the Florida Probe and VoiceWorks software functions as he has been creating and improving the software and hardware since his start with the company.
